Education

University of Southern California, Viterbi School of Engineering & Marshall School of Business **Los Angeles, CA**
Bachelor of Science in Computer Science and Business Administration May 2027
Minors in Artificial Intelligence Applications and Business Finance

- **Honors:** Dean's List, Tanoto Foundation Wharton Scholar, J&J Case Competition Team USC (Silver Medalist)
- **Coursework:** Software Engineering, Data Structures & Algorithms, Artificial Intelligence, Applied Python, Data Science

Technical Skills

Languages: Python, C/C++, Java, JavaScript, Swift, HTML/CSS, SQL, R
Frameworks/Libraries: React, Next.js, Node.js, Flask, LangChain, Bootstrap, Docker, Spring Boot, Pandas, NumPy
Tools/Platforms: Git/GitHub, Figma, Jira, Confluence, AWS, Google Vertex AI, MySQL, Microsoft 365, Photoshop

Entrepreneurial & Product Experience

InBite | *Full-stack Engineer* | Spring Boot, Java 21, React, Tailwind CSS, SQLite March 2026 – May 2026

- Shipped user authentication, recipe creation, host-managed event invitations, and an auto-scaling shopping list
- Translated user needs into technical requirements across service layer, REST controllers, and React UI, partnering with teammates on API specs and shipping with 95%+ test coverage across JUnit, Mockito, Jest, and Cucumber/Selenium

TrailFinder | *Product Engineer* | Next.js 14, Supabase, Leaflet October 2025 – December 2025

- Designed a map-first trail discovery platform for LA hikers, scoping a friends activity feed, photo-based hike logging, and user-submitted trail flow through impact/effort prioritization
- Translated user needs into technical requirements across geolocation suggestions, elevation charts, and star ratings, balancing depth with shipping velocity to drive a 3x reduction in hike-logging friction vs. baseline AllTrails flow
- Championed data integrity, implementing friends-only RLS policies in Supabase and seeding 20+ verified LA-area trails for day-one content quality

Pokédex++ | *Product Engineer* | Next.js 14, Supabase, Python, Scikit-Learn September 2024 – December 2024

- Shipped type coverage matrix, defensive weakness summary, and shareable party URLs based on user needs
- Balanced two ML models for stat prediction and similarity matching with accessibility, shipping keyboard-friendly reorder UI averaging 90%+ accuracy across 386 data points

Relevant Experience

USC Mann School of Pharmacy DHBB **Los Angeles, CA**
Technical Operations Student Worker Manager February 2025 – Present

- Led a team of 6 student workers, managing shift schedules, aligning operational priorities and team coordination
- Automated A/V execution serving 700+ learners across 15+ courses per semester, ensuring 98% uptime
- Deployed a unified geo-tracking attendance system automating check-ins for 300+ participants

Swing Phi **New York City, NY**
Gen. AI Engineer Intern May 2025 – August 2025

- Engineered FinBERT end-to-end news sentiment pipeline processing 100+ daily articles, delivering real-time insights
- Designed TF-IDF + DBSCAN multi-factor source scoring validating 10+ outlets, achieving 85% event correlation accuracy
- Paired Streamlit interface with ML predictions and volume-based validation, halving analysis time across 50+ securities

NTT Data Inc. **South Jakarta, ID**
Software Engineer Intern May 2024 – August 2024

- Shipped a RAG chatbot prototype on Google Vertex AI Studio for client inquiries, reducing reporting time by 30%
- Conducted user research across 5+ workflows, translating findings into prioritized feature requirements
- Collaborated cross-functionally with Google Cloud teams in EU & APAC, aligning business goals with technical feasibility

IDN Media **South Jakarta, ID**
Dashboard & Analytics Intern May 2023 – July 2023

- Translated raw MySQL campaign data into engagement insights for Unilever Clear®, driving a 45% lift in ad performance
- Iterated on dashboard design with Unilever marketing stakeholders, surfacing engagement drop-off patterns

Leadership & Involvement

USC Core Consulting Club | *Project Manager* January 2024 – May 2024

- Led 5 consultants for Ohana Housing Co., translating housing market data into regression analyses
- Synthesized 20+ stakeholder interviews and research across 12+ LA neighborhoods into prioritized recommendations
