Education

University of Southern California, Viterbi School of Engineering & Marshall School of Business **Los Angeles, CA**
Bachelor of Science in Computer Science and Business Administration May 2027
Minors in Artificial Intelligence Applications and Business Finance

- **Honors:** Dean's List, Tanoto Foundation Wharton Scholar, J&J Case Competition Team USC (Silver Medalist)
- **Coursework:** Software Engineering, Data Structures & Algorithms, Artificial Intelligence, Applied Python, Data Science

Technical Skills

Languages: Python, C/C++, Java, JavaScript, TypeScript, Swift, HTML/CSS, SQL, R
Frameworks/Libraries: React, Next.js, Node.js, Flask, LangChain, Bootstrap, Docker, Spring Boot, Pandas, NumPy
Tools/Platforms: Git/GitHub, Figma, Jira, Confluence, AWS, Azure, Google Gemini, MySQL, MongoDB, NoSQL, Microsoft 365

Entrepreneurial & Product Experience

InBite | *Full-stack Engineer* | Spring Boot, Java 21, React, Tailwind CSS, SQLite March 2026 – May 2026

- Scoped and shipped core user flows: auth, recipe creation, event invitations, and shopping list, prioritizing auth first to reach a usable MVP tested by 25+ early users
- Translated user needs into product requirements, REST controllers, and React UI, partnering with teammates on API specs, coordinating QA testing and documentation with 95%+ test coverage across development cycles

TrailFinder | *Product Engineer* | Next.js 14, Supabase, Leaflet October 2025 – December 2025

- Designed a map-first trail discovery platform for LA hikers, scoping a friends activity feed, photo-based hike logging, and a user-submitted trail roadmap, driving MVP launch over a 10-week build
- Defined requirements for geolocation, elevation charts, and ratings, aligning design and engineering teams
- Owned feature rollout end-to-end, seeding 20+ verified LA-area trails for real browse-able content and log on launch

Pokédex++ | *Product Engineer* | Next.js 14, Supabase, Python, Scikit-Learn September 2024 – December 2024

- Owned product requirements for type coverage matrix, defensive weakness summary, and shareable URLs
- Balanced two ML models for stat prediction and similarity, hitting 90%+ accuracy across 386 pts

Relevant Experience

USC Mann School of Pharmacy DHBB **Los Angeles, CA**
Technical Operations Student Worker Manager February 2025 – May 2026

- Led a team of 6 student workers, coordinating documentation and stakeholder priorities across scheduling needs
- Automated scalable A/V execution serving 700+ learners across 15+ courses, ensuring 98% uptime
- Defined product requirements for a unified geo-tracking system serving 300+ participants

Swing Phi **New York City, NY**
Gen. AI Engineer Intern May 2025 – August 2025

- Prototyped an LLM-driven news sentiment pipeline processing 100+ daily articles, delivering real-time insights
- Designed TF-IDF + DBSCAN annotation pipeline scoring 10+ outlets; achieved 85% precision for AI content classification
- Paired Streamlit interface with ML predictions and market analysis, driving product strategy across 50+ securities

NTT Data Inc. **South Jakarta, ID**
Software Engineer Intern May 2024 – August 2024

- Shipped a RAG pipeline on Vertex AI, managing the product lifecycle from scoping to deployment
- Ran discovery interviews across 5+ workflows, structuring findings into prioritized feature requirements
- Coordinated with Google Cloud teams using Agile Scrum to translate SaaS requirements into user stories

IDN Media **South Jakarta, ID**
Dashboard & Analytics Intern May 2023 – July 2023

- Analyzed MySQL campaign data for Unilever Clear®, building Tableau dashboards that drove a 45% lift in ad engagement
- Iterated on dashboard design with Unilever stakeholders, surfacing drop-off insights and recommendations

Leadership & Involvement

USC Core Consulting Club | *Project Manager* January 2024 – May 2024

- Led 5 consultants for Ohana Housing Co., translating housing market data into regression analyses
- Conducted data analysis in R to support housing market regression modeling and recommendations
- Synthesized 20+ stakeholder interviews in 12+ LA neighborhoods into prioritized requirements and recommendations
